### To All the Boys I've Loved Before Series

by Jenny Han - CALL# FIC HAN

What if all the crushes you ever had found out how you felt about them...all at once? Lara Jean Song keeps her love letters in a hatbox her mother gave her. They aren't love letters that anyone else wrote for her; these are ones she's written. One for every boy she's ever loved—five in all. When she writes, she pours out her heart and soul and says all the things she would never say in real life, because her letters are for her eyes only. Until the day her secret letters are mailed, and suddenly, Lara Jean's love life goes from imaginary to out of control.

### The Sun is Also A Star

by Jenny Han - CALL# FIC HAN

An eclectic dictionary mashed up with *Romeo and Juliet* and the '90s rom-com *One Fine Day*. Yoon grounds everything in Daniel and Natasha's instant, vital connection...and the conundrum that follows when they realize the universe has brought them together only to part them. It's a deep dive into love and chance and self-determination—and the many ways humans affect one another, often without even knowing it.
